PREVIOUS EDITION

In this issue of *FFI on Friday*, we want to give you an update on the October 21-23 conference in London. First of all, the conference as planned last March by the 2021 program committee is going forward. (Of course, we still have the October 18 and 19 virtual conference days for those who cannot attend, for a variety of reasons. Go [here](#) for details and to register.)

There will be four venues in October, and each space is carefully designed to follow all UK protocols for COVID-19 and in some cases, even more. Each venue will require, at a minimum, that attendees be vaccinated.

We are pleased that this event can go forward and thank the more than 100 people who have already registered.

Cordially,

2021 Conference Program Committee
